

Three Tier Cascade Planter (KC23)

Assembly Instructions

- Place the Large 23 inch Basket on a flat surface
- Screw the Long Rod to approx. 1 inch of the welded hex nut at the bottom center of 23 inch basket. (Please note, do not screw the threaded rod too far into the welded hex nut. It will be tightened together at the end of assembly.)
- Take the pipe, insert its bottom over the Long Rod & rest it on the 23 inch basket
- Take the 18 inch basket, pass it over the top end of Long Rod & rest it on the top of pipe
- Take the 2 inch pipe, insert its bottom over the Long Rod & rest it on the 18 inch basket
- Take the 14 inch basket pass it over the top end of Long Rod & rest it on the top of pipe
- Insert the washer & tighten the hex nut onto the Long Rod. (Tip – Secure the hex nut with the wrench and then spin the top basket to bring all of the baskets securely together.)
- Now your Three Tiered Cascade Planter is ready
